ELITETATZ · FOR LACEY · NOVEMBER 2026

One inbox for everyone who wants a tattoo from you.

The admin runs itself. The art, the quotes and every word to a client stay yours.

How a tattoo inquiry reaches you

Someone writes in
rawsunart.com form, the concierge chat, or a card you add yourself

→

The brief gets built
what, where, size, budget, references, dates

→

It lands in your inbox
and an email tells you a card is waiting

→

You tap one thing
every card ends with a tap

Quote · Ask · Reply · Pass · Deposit received

Who is talking to them

The concierge, on the chat page only.
It introduces itself as your booking assistant. It knows your rate, your $100 deposit, your no-sketch rule, and asks your questions one or two at a time.

Everything else is you.
Emails and texts to a client go out only when you tap. The assistant on a card drafts; it cannot send.

You can read every word.
Each card has a "Concierge transcript" you can open, then the live thread with the client.

Nothing slips

If a card sits, the system speaks first so no client waits in silence.

0h	36h	72h	14d
You get an email	**Client is reassured**	**Again, and Erica**	**Told once**
new card	"still with Lacey, by Thursday" + you get a nudge	second nudge, Erica copied	nothing is ever closed for you

Quiet hours 8 pm to 9 am. Nothing fires at night.

Reconnect: the 197 you kept

WAITS FOR YOUR TAP

One email: "I'm at AION in Dublin now."
To the people you reviewed on October 16. No store, no cards, no one you excluded.

Approve once, in the Approvals tab.
Then it goes by itself, 40 at a time, Tuesday to Thursday mornings, until everyone has it.

They get two buttons.
"Keep me on the list" or "Take me off." Anyone who taps nothing never hears from you again.

Replies come back as Returning cards.
The card shows they were on your list and when you last saw them. Their new piece is collected fresh.

Your three habits

Put it on your home screen
elitetatz.app → Share → Add to Home Screen. It opens like an app.

Tap something on every card
Quote, ask, reply or pass. A pass is a kindness; silence is not.

Tap "Deposit received"
when AION takes the deposit. That is what tells the client their spot is held.

ELITETATZ · FOR LACEY · YOUR FIRST 15 MINUTES

What you'll see, and how to test it.

Your inbox starts empty on purpose. Here is what the blank screen shows, then a short test you can run from your phone.

What the first screen looks like when there are no leads yet

Getting started

Three things, then it runs itself.

1 · Home screen 2 · One card, five taps 3 · Nothing slips

Got it

Example · what a card looks like

Watercolor peony on the outer forearm, about 4 inches

Brief · transcript · thread · the five taps, all greyed. It is a sample, not a client.

Tap "Got it" once and the walkthrough stays away on every phone. Tap "Show again" in the corner if you ever want it back. Two more tabs: **Approvals** holds the Reconnect email waiting for your okay. **Connections** shows what is switched on.

The test, step by step

1. **Sign in** at elitetatz.app with Google or the email link.
   Then Share → Add to Home Screen.
2. **Read the walkthrough**, tap Got it.
   Open the example card to see the brief, the transcript and the taps.
3. **Connections** → Connect Google Calendar.
   Google shows "this app isn't verified" while Erica's verification is pending. Tap Advanced, then continue. Read-only; it only reads your calendar when you look.
4. **Be a client.** On your phone, open rawsunart.com and tap "New idea? Let my concierge shape it with you." Ask for a small piece, answer its questions, give a personal email that is not lacey@rawsunart.com.
   You will get the client's "your inquiry is in" email there, and your artist email at lacey@.
5. **Open the new card.** Read the transcript. Tap the assistant for a draft. Tap **Ask** or **Reply** and send one line.
   Check the client address: your line arrived with a link to the inquiry page.
6. **Reply as the client** from that inquiry page. Watch it land on the thread.
7. **Quote** it, then tap **Deposit received**, then **Confirm date**.
   Each tap changes what the client sees on their page.
8. **Fill the inquiry form** on rawsunart.com once too. Same card, no chat.
9. **Pass** on both test cards when you are done.

Which doors are open today

A CLIENT REACHES YOU BY	LANDS IN YOUR INBOX
rawsunart.com inquiry form	NOW
The concierge chat (the "New idea?" button on rawsunart.com)	NOW
A card you add yourself (walk-in, phone call, IG DM you copy over)	NOW
Reconnect replies (after your Approve)	NOW
Email to lacey@rawsunart.com	SOON Erica connects the forward with you
Text message	SOON once Dialpad is linked
Instagram and Messenger DMs	LATER

Until the "soon" rows are on, keep doing what you do in Gmail, Instagram and texts. The inbox is a second copy, not a replacement, and nothing you do there is lost. Google Calendar is read-only and is never a source of leads.

Nothing on this list sends an email in your name without your tap. The chat receipt, the gentle reminders when a card sits, and the Reconnect email you approve are the only automatic ones.

Stuck? Text Erica. Every screen has a way back, and nothing you tap during the test reaches a real client.
